OBJECTIVE

Final year CSE student at VIT-Vellore, former SEP intern at JPMorgan Chase & Co. Experienced in building scalable full-stack web applications using modern JavaScript frameworks, backend technologies, and enterprise tools including Java, Spring Boot, and Big Data systems. Strong foundation in DSA, OOPs, and full-stack development, with growing exposure to AI/ML systems.

EXPERIENCE

- **Software Engineering Program (SEP) Intern – JPMorgan Chase & Co.** *May 2026 – July 2026*
 - Worked on a full-stack migration project transitioning legacy Olympic system to a modern CARDS-based system.
 - Tech stack included Java, Spring Boot, Big Data tools, SQL, Kubernetes, and AWS, with contributions across both backend services and frontend integration.
 - Co-developed Builder-Brews as a team project, delivering full stack coffee-shop application with various features during AI-Challenge hackathon.
 - Collaborated in an Agile team environment on enterprise-scale financial software used across JPMorganChase's global infrastructure.
- **SDE Intern – Intelivita Pvt. Ltd.,** Ahmedabad, Gujarat *May 2025 – July 2025*
 - Built a full-stack, responsive web application – ResumeBuilderPro using Next.js, TypeScript, and Tailwind CSS with secure authentication and resume storage powered by Supabase.
 - Designed an intuitive step-based resume builder using Formik + Yup with real-time validation and PDF export via html2canvas.
 - Integrated a Gemini API-powered AI chatbot to analyze resumes and generate personalized behavioral and technical interview Q&A.
 - Implemented global state management using Zustand, ensured code quality with ESLint, and deployed on Vercel.
- **Senior Core Member – IEEE Computer Society,** VIT Vellore *May 2024 – Aug 2025*
 - Worked on the development of VIMAANAS' (aero-design team) website.
 - Developed the official HackBattle (hackathon conducted by IEEE-CS) website's frontend.
 - Demonstrated strong communication, collaboration, and leadership skills in team-based environments.
- **Core Committee Member – Mozilla Firefox Club,** VIT Vellore *Apr 2024 – Dec 2024*
 - Contributed across technical and management domains in club activities and events.

EDUCATION

- **Vellore Institute of Technology, Vellore** *2023 – 2027*
B.Tech in Computer Science Engineering (Core)
CGPA: 9.04
- **Shiv Ashish School, Ahmedabad** *2023*
Grade: 95 Percentile (JEE Mains)
- **St. Kabir School, Ahmedabad** *2021*
Grade: 97.6% (CBSE Class X)

PROJECTS

- **ResumeBuilderPro – AI-Powered Resume Creation Platform**
(*Next.js, TypeScript, Tailwind CSS, Supabase, Formik, Zustand, Gemini API*) – [Live Link](#)
 - Full-stack resume builder with secure authentication and resume storage.
 - Integrated AI chatbot for interview preparation, real-time validation, PDF export, and modern UX.
- **E-Commerce Backend System**
(*Node.js, Express, TypeScript, SQL, REST APIs, JWT Auth*) – [GitHub](#)
 - Designed and built a production-ready RESTful backend for an e-commerce platform with product management, cart, orders, and user authentication.
 - Implemented JWT-based authentication, input validation middleware, and structured SQL schemas for relational data management.
 - Followed modular MVC architecture with TypeScript for type safety, scalability, and a maintainable codebase.

- **Vimaanas Website**
(*Next.js, Tailwind CSS*) – [Live Link](#)
 - Frontend development for aero-design team website.
- **PrepMate**
(*RAG, PDF Processing, YouTube API*) – [GitHub](#)
 - Hackathon-winning project converting PDFs and YouTube videos into flashcards and summaries using RAG.
- **Amazon Website Clone**
(*HTML, CSS, JavaScript*) – [GitHub](#)
 - Pixel-perfect clone of Amazon pages.
- **HackBattle Website**
(*Next.js, Tailwind CSS*) – [Live Link](#)

HONORS AND AWARDS

- **Selected – JPMorgan Chase Code for Good (2025):** Chosen to participate in JPMorgan Chase’s flagship social hackathon, competing among top engineering students nationally to build tech solutions for nonprofits.
- **Winner – Yantra’25 Hackathon** (Feb 2025), VIT Vellore.
- **Devraj Trophy** for standing academically first among all sections (Secured 98.02%).

VOLUNTEER EXPERIENCE

- HackBattle’s Tech-Volunteer – Reviewed & judged over 100+ projects at 36 hour hackathon organised by IEEE Computer Society, VIT Vellore (Sept 2024)

SKILLS

Programming Languages: Python, C, C++, Java, JavaScript, TypeScript

Web Technologies: React.js, React DOM, Next.js, Node.js, Express.js, Spring Boot, HTML5, CSS, Tailwind CSS, Bootstrap, CSS Flexbox, CSS Grid

Databases & Cloud: MySQL, Oracle SQL, PostgreSQL, DBMS, Firebase, Supabase, AWS, Cloud Computing, Big Data Tools

DevOps & Infrastructure: Git, GitHub, Vercel, Docker, Kubernetes, ESLint, Packet Tracer

Developer Tools: Formik, Zustand, Prisma ORM, REST APIs, JWT Authentication, MLflow

AI/ML: Machine Learning, Artificial Intelligence, Scikit-learn, TensorFlow, PyTorch, NumPy, Pandas

Development: Full-Stack Development, Front-End Development, Back-End Development, Object-Oriented Programming (OOP)

Soft Skills: Project Management, Team Management, Team Leadership, Event Management, Strategic Communication, Public Speaking

Core CS: Operating Systems, Data Structures & Algorithms, Compiler Design, Advanced Competitive Coding, Computer Networks

LANGUAGES

English (Professional Proficiency), Hindi (Bilingual Proficiency), Gujarati (Native Proficiency)

ADDITIONAL INFORMATION

Conducted a Prompt Engineering Workshop at IEEE Computer Society, VIT Vellore (June 2025), covering zero-shot, few-shot, and chain-of-thought prompting with real-world developer tools.
