OBJECTIVE

Final-year CSE student at VIT Vellore (CGPA 9.04), **upcoming Software Engineer at JPMorganChase**, and AWS Certified Cloud Practitioner.

EXPERIENCE

- **Software Engineering Program (SEP) Intern – JPMorgan Chase & Co.** May 2026 – July 2026
 - Contributed to a full-stack migration from a legacy system to a modern CARDS-based architecture using Java, Spring Boot, Kubernetes, AWS, and Big Data tools, collaborating in an Agile/Scrum team on enterprise-scale financial infrastructure.
 - Delivered an end-to-end project that was deployed and taken live, gaining experience building, integrating, and shipping production-ready software; also co-developed Builder-Brews during an internal AI-Challenge hackathon.
- **SDE Intern – Intelivita Pvt. Ltd.**, Ahmedabad, Gujarat May 2025 – July 2025
 - Built and deployed ResumeBuilderPro, an AI-powered resume platform with an AI interview-prep chatbot, real-time form validation, secure authentication and storage, and PDF resume export.
- **Senior Core Member – IEEECS**, VIT Vellore May 2024 – Aug 2025
 - Developed the frontend for the VIMAANAS and HackBattle websites, led collaborative technical initiatives, and conducted a Prompt Engineering Workshop covering zero-shot, few-shot, and chain-of-thought prompting.
- **Core Committee Member – Mozilla Firefox Club**, VIT Vellore Apr 2024 – Dec 2024
 - Contributed across technical and management domains in club activities and events.

EDUCATION

- **Vellore Institute of Technology, Vellore** (B.Tech CSE Core) – CGPA: 9.04 2023 – 2027
- **Shiv Ashish School, Ahmedabad** – 95 Percentile (JEE Mains) 2023
- **St. Kabir School, Ahmedabad** – 97.6% (CBSE Class X) 2021

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** – Score: 981/1000 Credly

PROJECTS

- **LabelTruth** – AI-powered food label decoder that OCR-scans ingredients and generates plain-English insights on additives, allergens, and ultra-processed scores. GitHub
React, TypeScript, Node.js, Express, PostgreSQL, Prisma, Google Cloud Vision OCR, Open Food Facts API, OpenAI API
- **Privacy Implications of GenAI** – Built an end-to-end GenAI privacy pipeline to detect training-data leakage and reduce PII exposure through sanitisation and output filtering, achieving 92% lower measured leakage. GitHub
Python, PyTorch, Hugging Face Transformers, GPT-2, Faker, Hugging Face Datasets, Scikit-learn, Pandas, Matplotlib, Regex
- **FinSim – GTA for Personal Finance** – Built a 30-year personal-finance simulation where an AI agent navigates salaries, expenses, investments, loans, emergencies, and unexpected life events across alternate futures.
Python, PyTorch, Stable-Baselines3, Monte Carlo Simulation, Next.js, LLMs
- **ResumeBuilderPro** – AI-powered resume builder with secure authentication, storage, AI interview chatbot, real-time validation, and PDF export. Live Link
Next.js, TypeScript, Tailwind CSS, Supabase, Formik, Zustand, Gemini API
- **E-Commerce Backend System** – Production-ready RESTful backend supporting product, cart, order, and JWT-based authentication management. GitHub
Node.js, Express, TypeScript, SQL, REST APIs, JWT Auth
- **PrepMate** – Hackathon-winning RAG tool that converts PDFs and YouTube videos into flashcards and concise summaries. GitHub
RAG, PDF Processing, YouTube API
- **Vimaanas Website** – Frontend development for the aero-design team's website. Live Link
Next.js, Tailwind CSS

PUBLICATIONS

- **EOG-Based Ocular Activity Recognition Using a Deep Hybrid Sequence Modeling Framework** Accepted, 2026
 - Accepted at the 7th IEEE India Council International Subsections Conference (INDISCON 2026).
 - Proposed a hybrid CNN-BiLSTM-BiGRU ensemble with temporal attention for EOG-based eye-movement classification, achieving 98.67% accuracy via Group K-Fold cross-validation.

HONORS AND AWARDS

- **Selected – JPMorgan Chase Code for Good (2025)**: Selected among top engineering students nationally to build technology solutions for nonprofits.
- **Microsoft Tech Talk Recognition**: Awarded a Microsoft prize for correctly answering a technical question during Microsoft's campus tech talk.
- **Winner – Yantra'25 Hackathon** (Feb 2025), VIT Vellore.
- **Devraj Trophy** for standing academically first among all sections (Secured 98.02%).

VOLUNTEER EXPERIENCE

- **HackBattle Tech-Volunteer** – Reviewed and judged 100+ projects at a 36-hour hackathon organised by IEEECS, VIT Vellore.

SKILLS

Languages & Web: Python, C/C++, Java, JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, Spring Boot, HTML5/CSS, Tailwind, Bootstrap

Databases & Cloud: MySQL, PostgreSQL, Oracle SQL, Firebase, Supabase, AWS, Big Data Tools

DevOps & Tools: Git, GitHub, Docker, Kubernetes, Vercel, ESLint, REST APIs, JWT Auth, Prisma ORM, Formik, Zustand, MLflow

AI/ML: Scikit-learn, TensorFlow, PyTorch, NumPy, Pandas, Stable-Baselines3, Machine Learning, Prompt Engineering

Core CS & Practices: OS, DSA, Compiler Design, Computer Networks, Competitive Coding, Agile/Scrum, Project & Team Management, Public Speaking

LANGUAGES

English (Professional Proficiency), Hindi (Bilingual Proficiency), Gujarati (Native Proficiency)
